Home: Am Steingarten 14 293, 68169 Mannheim (Germany)

ABOUT ME

Highly motivated professional pursuing master's in Data Science and excelled as an AI Engineer, leveraging my expertise to enhance products and drive innovation in a fast paced environment. Passionate about machine learning and dedicated to staying at the forefront of the field. Skilled in developing and implementing AI algorithms and models, optimizing product functionality, and driving data-driven decision-making processes to improve performance and deliver cutting- edge solutions.

WORK EXPERIENCE

Associate Software Engineer

Cloudoffis Technologies LLP [19/09/2022 – 29/02/2024]

City: Gandhinagar

Country: India

- Lead the NETRA Document Classification Engine of the SMSF Audit Software.
- Developed automatic data extraction pipeline supporting more than 10 financial documents with LLM as base.
- Verified classification compliance with all requirements and specifications.
- Responsible to keep the NETRA pipeline updated containing more than 60 transformers and scikit classifiers with all the latest improvements going on.
- Responsible for change of logic and functionality to support more variety of documents.

Machine Learning Intern

Cloudoffis Technologies LLP [01/05/2022 – 30/06/2022]

City: Gandhinagar

Country: India

- Worked on PDF Classification based on Machine Learning, Natural Language Processing, and Transformers.
- Implemented an Encoder based model and tested it on dummy data resulting in a increase of 15% more confidence.

EDUCATION AND TRAINING

Master of Science

University of Mannheim [12/02/2024 – Current]

City: Mannheim

Country: Germany

Website: https://www.uni-mannheim.de/

Field(s) of study: Data Science

Bachelor of Technology

Charotar University of Science and Technology [01/07/2019 – 02/05/2023]

Address: Charusat University, Nadiad - Petlad Road Changa, 388421 Anand (India)

Website: https://www.charusat.ac.in/

Field(s) of study: Computer Science and Engineering

Final grade: 9.68

PROJECTS

Synthos – Harmonizing the Digital Symphony of PDF Insights.

[01/11/2023 – Current]

Synthos, an avant-garde solution designed to revolutionize data extraction from diverse documents. Built upon the innovative Retrieval Augmented Generation (RAG) architecture and complexing prompting powered by Large Language Models (LLM), Synthos transcends conventional limitations, offering dynamic data extraction capabilities unrivaled by traditional tools.

CloudSync – Unleash Knowledge with Effortless Precision

[01/07/2023 – 30/12/2023]

CloudSync is a pioneering project poised to revolutionize information access, merging innovation and technology for an intuitive user experience. Through Retrieval Augmented Generation (RAG) architecture and a central chatbot interface, it empowers users with natural, conversational interactions with tailored documents, eliminating the drudgery of manual retrieval for a more efficient future.

Falcon – Reveal the Depths of ML

[01/03/2023 – 30/06/2023]

Falcon is an innovative system crafted for holistic model interpretation and monitoring in machine learning. Harnessing the potent fusion of SHAP (SHapley Additive exPlanations) and LIME (Local Interpretable Model-agnostic Explanations), Falcon provides a versatile framework to elucidate and understand models across tabular and textual data domains.

IDEAC – Elevate Your Financial Insights with Intelligent Analysis

[01/09/2022 – 31/03/2023]

IDEAC (Intelligent Document Extraction and Classification) presents an innovative module, driven by state-of-the-art machine learning algorithms. With seamless precision, IDEAC navigates through a myriad of financial documents, encompassing bank statements, receipts, and invoices. This robust system deftly identifies and extracts pivotal information, encompassing transaction amounts, dates, and detailed descriptions.

Netra-i – Empowering Vision, Guiding Independence.

[01/04/2022 – 30/09/2022]

A groundbreaking Pi-operated device with an embedded camera for real-time object detection. Predictions are instantly converted into speech, enabling seamless navigation for users, especially those with visual impairments. Empowerment, independence, and inclusivity in one device, enhancing overall quality of life

DIGITAL SKILLS

Python Libraries and Packages

NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, NLTK, NetworkX, SciPy, TensorFlow

Machine Learning

Natural Language Understanding / Data extraction, Data preprocessing, Data visualization, Data cleaning / Natura l Language Generation / Data Cleaning, Data Warehousing, Data Modeling / Natural language Processing / Compu ter Vision / Generative Models / Retrieval Augmentation

Programming and Version Control
Python / SQL / Git / Bitbucket / Linux

LANGUAGE SKILLS

Mother tongue(s): **Gujarati**

Other language(s):

English

LISTENING C2 **READING** C2 **WRITING** C1

SPOKEN PRODUCTION C2 **SPOKEN INTERACTION** C1

Hindi

LISTENING C2 **READING** C1 **WRITING** B2

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HONOURS AND AWARDS

Gold Medal

Charotar University of Science and Technology [06/01/2024]

I achieved a remarkable CGPA of 9.68 during my college education and was honored with the prestigious GOLD medal as the top performer during the graduation ceremony.
